Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.midrivers.com/hearing-aid-compatibility/>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Mid-Rivers Wireless hearing aid compatibility information sheet is available at each retail outlet and is reviewed regularly to ensure continuing accuracy. Mid-Rivers continues the practice of including HAC information in customer invoices periodically, and maintains signs in each retail location encouraging customers and prospective customers to ask a sales representative about HAC issues. Information regarding hearing aid compatibility is also available on the Company's web site.

Methodology for Functionality Levels

C&CC assigns each compliant handset a level of functionality based upon the company's assessment of two factors: price and operating features. Lower priced handsets with fundamental capabilities are defined as "Basic". More advance functions or functionality, such as availability of a better quality camera or enhanced memory, together with a higher price, results in classifying a handset as "Intermediate". More expensive phones with the availability of Wireless Internet or Wi-Fi capability or an operations system that supports advanced applications are classified as "Advanced".
